SECTION 1

INTRODUCTION

1.1 Description of University

Founded in 1895, The University of Texas at Arlington is a Carnegie Research-1 “Very High Research Activity” institution with more than 100 years of academic excellence and tradition.

It is a comprehensive research, teaching, and public service university whose mission is the advancement of knowledge and the pursuit of excellence.

With a global enrollment of more than 60,000, UT Arlington is the largest university in North Texas. It also has one of the most diverse campus populations in the country. Students come from every state and more than 100 countries, contributing to *U.S. News & World Report* ranking it with the fifth-highest undergraduate ethnic diversity index in the country. UT Arlington is a Hispanic-Serving Institution and is ranked No. 1 in the U.S. for veterans and their families by *Military Times*.

The University has research centers in every discipline and state-of-the-art facilities in Arlington and Fort Worth that enable our faculty and students to help solve the world’s most urgent challenges. Of its 220,000-plus alumni, approximately 65% percent live in North Texas. Their presence helps the University create an annual economic impact of almost \$17.1 billion in the region.

1.2 Background and Special Circumstances

In a groundbreaking collaboration with the City of Arlington, the University of Texas at Arlington (UT Arlington) is excited to announce the search for an operator of a public, rentable-device program ("**Micromobility Program**"). This innovative venture aims to provide convenient, efficient, and sustainable transportation options to all students, faculty, staff, visitors on campus, as well as the general public within the surrounding Downtown Arlington area. The program’s operational zone ("**Service Zone**") encompasses the UT Arlington campus and extends approximately 1 square mile around Downtown Arlington.

In 2023, a decision by the City Council amended the City Ordinance 23-057, paving the way for scooters to operate on public streets within the Service Zone. This amendment is a significant step forward in enhancing urban mobility and reflects a commitment to evolving transportation needs. UT Arlington and City staff have worked diligently to develop a pilot program that will introduce dockless rentable devices in this area. Our goal is to enhance campus and city connectivity, offering convenient transportation options through a variety of dockless devices. Importantly, we have established rigorous guidelines to ensure that our program not only improves mobility but also maintains the aesthetics and safety of our campus and surrounding community environment.

A no-solicitation policy is in effect for the university campus requiring all participants in this dockless environment to be registered to participate. All non-approved operator’s devices will be confiscated at operator’s expense.

This program is designed with precise controls to prevent the issues commonly seen with similar initiatives in other cities. We have implemented strict regulations for device parking, ensuring they do not obstruct pedestrian pathways or detract from the area’s aesthetics. Safety for both pedestrians and riders is paramount, and our operational framework is crafted to minimize risks and promote responsible usage.

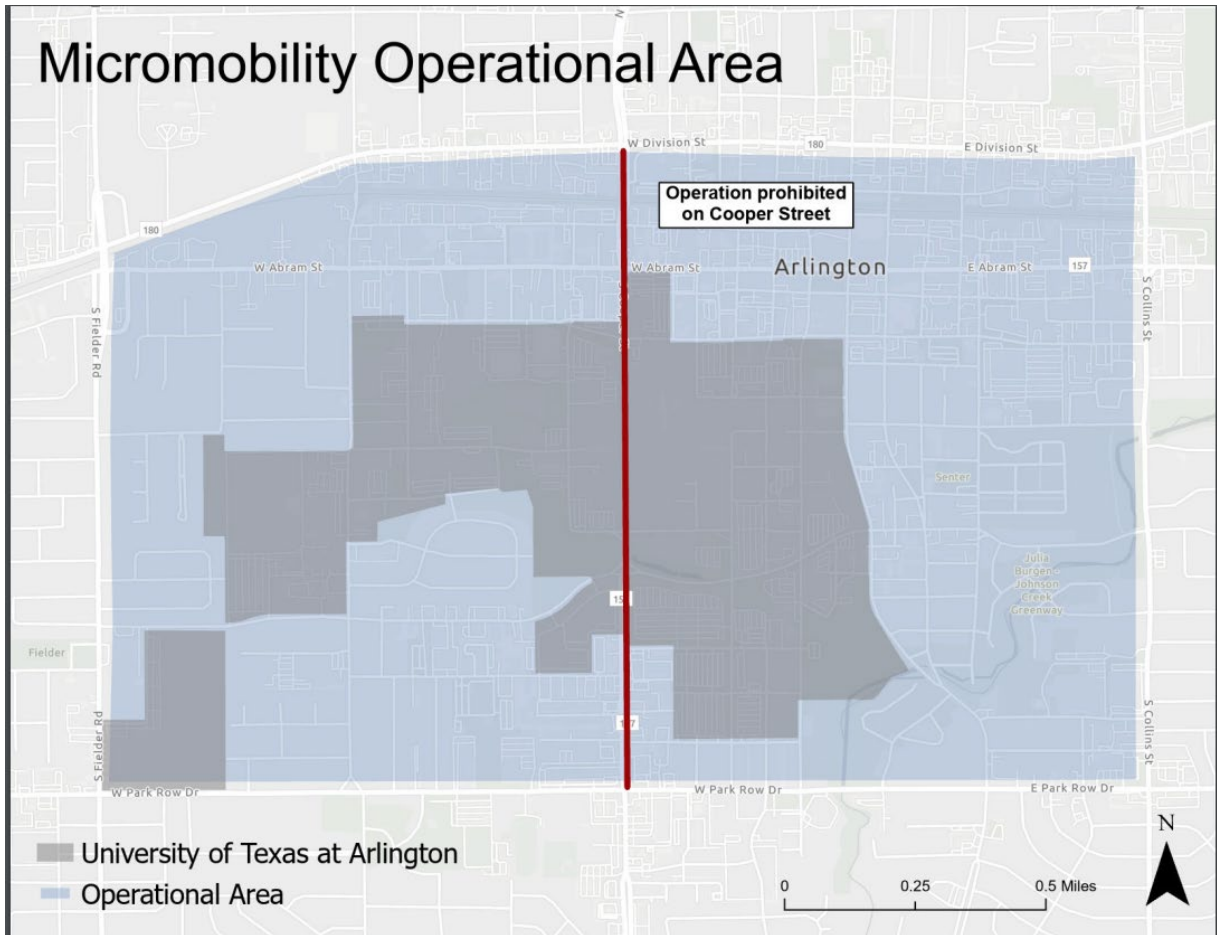

Furthermore, we have established a partnership with the City of Arlington and the Downtown Arlington Management Corporation, ensuring a cohesive approach across the Service Zone. Our program features specific regulations regarding the types of devices, permitting processes, fleet caps, and safety standards, all aimed at creating a harmonious balance between accessibility and order. The program is a shared partnership between the University, the City of Arlington, and the Downtown Arlington Management Corporation. The selected Operator will be required to execute an agreement or license with both the University and the City of Arlington prior to commencing

1289195-09-3-64

operations. The Downtown Arlington Management Corporation will be a resource to identify parking zones on private property within the off-campus Service Zone.

The winning operator will execute two separate agreements, an operating contract with the University and a licensing agreement with the City of Arlington before operating within the Service Zone.

The University of Texas at Arlington (**University**) is soliciting proposals from qualified vendors to perform work (**Work**) more specifically described in **Scope of Work** Document of this Request for Proposal (**RFP**).

NOTE: The University reserves the right to make multiple awards if deemed to be in the best interest of, and the best value for, our needs.

Please reference the City of Arlington Ordinance 23-057, which outlines specifics on motor-assisted scooter operations on public roadways. For any questions related to the City of Arlington ordinance or licensing agreement process, please contact:

1.3 Objective of Request for Proposal

The University is soliciting proposals in response to this Request for Proposal, RFP No. 2024-10 (this “RFP”), for selection of a qualified vendor to provide a Micromobility Program service (the “Services”) for the University and public, which are more specifically described in **Section 5** (Scope of Work) of this RFP.

1.4 Term of the Agreement

The initial term of the resulting Agreement will be for one (1) year and thereafter the University shall have the right, at its option, to renew the Agreement for up to two (2) additional renewal terms of one (1) year each.

Prices for the initial term are to be firm. At the end of the initial term and each renewal term (if any), the public-facing rates may be increased, decreased or remain unchanged. Any price adjustment must be requested by the Vendor in writing, including detailed documentation supporting the increase, at least sixty (60) days prior to the expiration of the current term. Changes, if agreed to, shall be based upon the percentage change in the Bureau of Labor Statistics’ Consumer Price Index (CPI)-All Urban Consumers for Dallas-Fort Worth-Arlington for the previous contract period (https://www.bls.gov/regions/southwest/news-release/consumerpriceindex_dallasfortworth.htm). No change in pricing shall exceed the year-over-year percentage change in the CPI index noted above, unless it is deemed in the best interest of the University based on current market conditions and the best value criteria included in Texas Education Code 51.9335.

1.5 Transition Period

Contractor must agree that when the resulting Contract Agreement of this RFP expires or is terminated for any reason, then, at the University’s option, Contractor will continue to perform the UTA2024-010 Micromobility Services in accordance with the terms, conditions and pricing of this Contract Agreement until the University contracts with another qualified and experienced Contractor(s) to perform the UTA2024-010 Micromobility Services or, is able to perform the UTA2024-010 Micromobility Services in-house; provided that the Contractor will not be required to continue performing the UTA2024-010 Micromobility Services for more than three (3) months after the expiration or termination date of this Contract Agreement.

The Contractor will cooperate with, and assist, the University’s efforts to transition to another Contractor(s) or to perform UTA2024-010 Micromobility Services in-house.

1.6 Group Purchase Authority

Texas law authorizes institutions of higher education (defined by [§61.003, Education Code](#)) to use the group purchasing procurement method (ref. §§[51.9335](#), [73.115](#), and [74.008](#), *Education Code*). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP. In particular, Proposer should note that University is part of The University of Texas System (**UT System**), which is comprised of fourteen institutions described at <http://www.utsystem.edu/institutions>. UT System institutions routinely evaluate whether a contract resulting from a procurement conducted by one of the institutions might be suitable for use by another, and if so, this RFP could give rise to additional purchase volumes. As a result, in submitting its proposal, Proposer should consider proposing a pricing model and other commercial terms that take into account the higher volumes and other expanded opportunities that could result from the eventual inclusion of other institutions in the purchase contemplated by this RFP. Any purchases made by other institutions based on this RFP will be the sole responsibility of those institutions.

1.7 Addenda and Additional RFP Documents

Any addenda or other subsequently released RFP documents will be posted to the University’s online solicitation website www.bidnetdirect.com/arlington (BidNet). They will not be sent directly to potential proposers. It is the

1289195-09-5-64

Proposer's responsibility to periodically check the BidNet website www.bidnetdirect.com//arlington for additional RFP documents.

1.8 Parking

To be aware of the requirements and options available for parking, employees of companies who park their personal vehicle in UTA parking facilities, or any property owned or controlled by UTA, to perform their duties are encouraged to visit the University's Parking and Transportation Services website at <https://www.uta.edu/pats/parking/contractor-vendor.php>.

The goal of the HUB program is to promote full and equal business opportunity for all businesses in contracting with state agencies. Pursuant to the HUB program, if under the terms of any agreement or contractual arrangement resulting from this RFP, Contractor subcontracts any Work, then Contractor must make a good faith effort to utilize HUBs certified by the Procurement and Support Services Division of the Texas Comptroller of Public Accounts. Additionally, compliance with good faith effort guidelines is a condition precedent to awarding any agreement or contractual

1289195-09-8-64

arrangement resulting from this RFP. Proposer acknowledges that, if selected by University, its obligation to make a good faith effort to utilize HUBs when subcontracting any Work will continue throughout the term of all agreements and contractual arrangements resulting from this RFP. 1289195-09-13-64

SECTION 5

SPECIFICATIONS AND ADDITIONAL QUESTIONS**5.1 General**

The minimum requirements and the specifications for the Services, as well as certain requests for information to be provided by Proposer as part of its proposal, are set forth below. As indicated in **Section 2.3** of this RFP, the successful Proposer is referred to as the “**Contractor.**”

5.1.1 The University desires a turnkey solution at no cost to the university that includes use of shared Micromobility equipment, parking stations (if required), charging stations (if required), planning and research, insurance (against theft, loss, injury, and damage), maintenance, technology, and marketing. The University does not desire to purchase the equipment. The University is interested in manual bikes, electric bikes, and scooters, collectively called (“**Devices**”) throughout this document. The university will consider docked bikes and dockless devices closely resembling the concept of shared scooters and bikes. The Micromobility Program must comply with the UTA Dockless Micromobility Program.

5.1.2 The goals of the program are to:

- Offer a **tightly controlled** and **well-maintained** micromobility program to complement the existing mobility solutions to help students move about the campus and city.
- To have strict controls in place to ensure dockless devices do not impede pedestrian right of way nor impact the aesthetics of the campus.
- Provide a transportation solution alternative to personal vehicles for short-range trips on the university campus and Downtown Arlington area.
- Provide another mode of travel as a “green” goal.
- Provide an affordable membership-based or pay-as-you-go option for students to utilize in exchange for not bringing a personal bike to campus.
- Create a new revenue stream for the University.
- Supplement the campus transportation system by providing bicycles at select remote and reduced-rate parking lots to encourage additional permit sales.
- To ensure devices are only parked in approved drop zone parking areas.

5.2 Minimum Requirements Intentionally omitted.

5.3 Additional Questions Specific to this RFP

Proposer must submit the following information as part of Proposer’s proposal:

5.3.1 If Proposer takes exception to any terms or conditions set forth in **APPENDIX TWO**), Proposer must submit a list of the exceptions.

5.3.2 Intentionally omitted.

5.3.3 In its proposal, Proposer must indicate whether it will consent to include in the Agreement the “Access by Individuals with Disabilities” language that is set forth in **APPENDIX FIVE, Access by Individuals with Disabilities**. If Proposer objects to the inclusion of the “Access by Individuals with Disabilities” language in the Agreement, Proposer must, as part of its proposal, specifically identify and describe in detail all of the reasons for Proposer’s objection. NOTE: A GENERAL OBJECTION IS NOT AN ACCEPTABLE RESPONSE TO THIS QUESTION.

1289195-09-14-64

- 5.3.4 In its proposal, Proposer must respond to each item listed in **APPENDIX SIX, Electronic and Information Resources (EIR) Environment Specifications**. **APPENDIX SIX** will establish specifications, representations, warranties, and agreements related to the EIR that Proposer is offering to provide to University. Responses to **APPENDIX SIX** will be incorporated into the Agreement and will be binding on Contractor.
- 5.3.5 Intentionally omitted.
- 5.3.6 In its proposal, Proposer must respond to each item listed in **APPENDIX SEVEN, Security Characteristics and Functionality of Contractor's Information Resources**. **APPENDIX SEVEN** will establish specifications, representations, warranties and agreements related to the EIR that Proposer is offering to provide to University. Responses to **APPENDIX SEVEN** will be incorporated into the Agreement and will be binding on Contractor.

5.4 Scope of Work

The Micromobility Program system needs to be designed to make the necessary impact on the reduction of the total number of bicycles on campus. We believe the main student users will be those living on or near campus and bus/car commuters parking in remote parking lots, as well as faculty, staff and visitors that just want to travel around campus more quickly than walking or taking an on-campus bus.

The program will also be open to the public. The Service Zone consists of areas on and off university property, and the public may utilize the Proposer's program throughout the Service Zone.

It is our desire to have person with disabilities-accessible equipment Americans with Disabilities Act (ADA) compliant.

- 5.4.1 Program Design: The Micromobility Program should reduce bicycle numbers on campus, cater to students (especially on-campus residents and commuters), faculty, staff, and visitors, and be accessible to casual users.
- 5.4.2 Accessibility: The program must include ADA-compliant equipment.
- 5.4.3 Services by Contractor:
- 5.4.3.1 Operate a **tightly controlled** and **well-maintained** Micromobility Program with revenue sharing.
 - 5.4.3.2 Provide device safety training. Install high-visibility signage at fleet locations, approved by the University.
 - 5.4.3.3 Establish a contact program via email/social media/phone for updates and customer service.
 - 5.4.3.4 Ensure timely redistribution of equipment, adhering to UTA's regulations.
 - 5.4.3.5 Promote the service regularly through a well-developed marketing campaign.
- 5.4.4 Additional Vendor Responsibilities:
- 5.4.4.1 Provide real-time reports and secure administrative access for university personnel.
 - 5.4.4.2 Respond to customer service complaints within 12 hours (excluding weekends).
 - 5.4.4.3 Manage accounts and transactions, ensuring credit card processing security compliance.
 - 5.4.4.4 Deposit revenue-share funds bi-weekly via ACH deposit.
 - 5.4.4.5 Must distribute/redistribute equipment daily.
- 5.4.5 Proposal Requirements:

1289195-09-15-64

- 5.4.5.1 Program Overview: Describe how users will access and utilize the devices, including program functionality and user interaction.
 - 5.4.5.2 Equipment and Stations: Detail the specifications and requirements of the equipment, docking stations, and any related components like locks and power requirements.
 - 5.4.5.3 Fees and Technology: Outline the elements covered by user fees, including equipment usage and operational costs. Describe the technology and software for equipment access, tracking, and reporting, ensuring accessibility for all users, including non-smartphone users.
 - 5.4.5.4 Maintenance and Location Planning: Explain the maintenance schedule for the equipment and the strategy for identifying optimal locations for maximum program usage.
 - 5.4.5.5 Marketing and Implementation: Provide a detailed marketing and public education plan, including a timeline for implementation and specific roles and financial commitments for the university and vendor.
 - 5.4.5.6 Pricing and Revenue Sharing: Develop a pricing structure and revenue sharing model that ensures consistent and affordable user fees.
 - 5.4.5.7 Customer Service and Platform Management: Discuss the customer service infrastructure, platform ease of use, reporting capabilities, and account management systems. Highlight any additional customer service features and explain why your solution is the best fit for the university's needs.
 - 5.4.5.8 Data Sharing: Provide any limitations to user data or device data you will not share with the University. Provide a comprehensive list of data available to the University to monitor service levels and ridership.
- 5.4.6 Drop Zones:

- *Per-Trip Revenue Share Fee:* All operators must pay a monthly Revenue Share Fee per trip. This fee is due within 15 days of the close of the previous month and paid via ACH.

Note on Fees:

- Fees may be adjusted annually with a 60-day notice.

SECTION 4: ADDENDA CHECKLIST

1289195-09-21-64

SECTION 1**GENERAL INFORMATION****1.1 Purpose**

University is soliciting competitive sealed proposals from Proposers having suitable qualifications and experience providing services in accordance with the terms, conditions and requirements set forth in this RFP. This RFP provides sufficient information for interested parties to prepare and submit proposals for consideration by University.

By submitting a proposal, Proposer certifies that it understands this RFP and has full knowledge of the scope, nature, quality, and quantity of services to be performed, the detailed requirements of services to be provided, and the conditions under which services are to be performed. Proposer also certifies that it understands that all costs relating to preparing a response to this RFP will be the sole responsibility of the Proposer.

PROPOSER IS CAUTIONED TO READ THE INFORMATION CONTAINED IN THIS RFP CAREFULLY AND TO SUBMIT A COMPLETE RESPONSE TO ALL REQUIREMENTS AND QUESTIONS AS DIRECTED.

1.2 Inquiries and Interpretations

University may in its sole discretion respond in writing to written inquiries concerning this RFP and mail its response as an Addendum to all parties recorded by University as having received a copy of this RFP. Only University's responses that are made by formal written Addenda will be binding on University. Any verbal responses, written interpretations, or clarifications other than Addenda to this RFP will be without legal effect. All Addenda issued by University prior to the Submittal Deadline will be and are hereby incorporated as a part of this RFP for all purposes.

Proposers are required to acknowledge receipt of each Addendum as specified in this Section. The Proposer must acknowledge all Addenda by completing, signing and returning the Addenda Checklist (ref. **Section 4 of APPENDIX ONE**). The Addenda Checklist must be received by University prior to the Submittal Deadline and should accompany the Proposer's proposal.

Any interested party that receives this RFP by means other than directly from University is responsible for notifying University that it has received an RFP package, and should provide its name, address, telephone, and facsimile (**FAX**) numbers, and email address, to University, so that if University issues Addenda to this RFP or provides written answers to questions, that information can be provided to that party.

1.3 Public Information

Proposer is hereby notified that University strictly adheres to all statutes, court decisions and the opinions of the Texas Attorney General with respect to disclosure of public information.

University may seek to protect from disclosure all information submitted in response to this RFP until such time as a final agreement is executed.

Upon execution of a final agreement, University will consider all information, documentation, and other materials requested to be submitted in response to this RFP, to be of a non-confidential and non-proprietary nature and, therefore, subject to public disclosure under the *Texas Public Information Act* (ref. [Chapter 552, Government Code](#)). Proposer will be advised of a request for public information that implicates their materials and will have the opportunity to raise any objections to disclosure to the Texas Attorney General. Certain information may be protected from release under §§[552.101](#), [552.104](#), [552.110](#), [552.113](#), and [552.131](#), *Government Code*.

1.5 Proposal Evaluation Process

University will select Contractor by using the competitive sealed proposal process described in this Section. Any proposals that are not submitted by the Submittal Deadline or that are not accompanied by required number of completed and signed originals of the HSP will be rejected by University as non-responsive due to material failure to comply with this RFP (ref. **Section 2.5.4**). Upon completion of the initial review and evaluation of proposals, University may invite one or more selected Proposers to participate in oral presentations. University will use commercially reasonable efforts to avoid public disclosure of the contents of a proposal prior to selection of Contractor.

University may make the selection of Contractor on the basis of the proposals initially submitted, without discussion, clarification, or modification. In the alternative, University may make the selection of Contractor on the basis of negotiation with any of the Proposers. In conducting negotiations, University will use commercially reasonable efforts to avoid disclosing the contents of competing proposals.

University may discuss and negotiate all elements of proposals submitted by Proposers within a specified competitive range. For purposes of negotiation, University may establish, after an initial review of the proposals, a competitive range of acceptable or potentially acceptable proposals composed of the highest rated proposal(s). In that event, University may defer further action on proposals not included within the

1289195-09-22-64

competitive range pending the selection of Contractor; provided, however, University reserves the right to include additional proposals in the competitive range if deemed to be in the best interest of University.

After the Submittal Deadline but before final selection of Contractor, University may permit Proposer to revise its proposal in order to obtain the Proposer's best and final offer. In that event, representations made by Proposer in its revised proposal, including price and fee quotes, will be binding on Proposer. University will provide each Proposer within the competitive range with an equal opportunity for discussion and revision of its proposal. University is not obligated to select the Proposer offering the most attractive economic terms if that Proposer is not the most advantageous to University overall, as determined by University.

University reserves the right to (a) enter into an agreement for all or any portion of the requirements and specifications set forth in this RFP with one or more Proposers, (b) reject any and all proposals and re-solicit proposals, or (c) reject any and all proposals and temporarily or permanently abandon this selection process, if deemed to be in the best interests of University. Submission of compliance reports will be required as a condition for payment under this Agreement. If University determines that Contractor has failed to subcontract as set out in the HSP, University will notify Contractor of any deficiencies and give Contractor an opportunity to submit documentation and explain why the failure to comply with the HSP should not be attributed to a lack of good faith effort by Contractor. If University determines that Contractor failed to implement the HSP in good faith, University, in addition to any other remedies, may report nonperformance to the SPSS in accordance with [34 TAC §§20.285\(g\)\(5\), 20.585](#) and [20.586](#).
