58. **Cybersecurity Training Program.** If Contractor and/or its subcontractors, officers, or employees will have an account on a state computer system (for example, an account to an application, database, or network), then pursuant to [Section 2054.5192, Texas Government Code](#), Contractor and its subcontractors, officers, and employees must complete a cybersecurity training program certified under [Section 2054.519, Texas Government Code](#) and selected by the University. - (A) provide at no cost to the University all contracting information related to this Agreement that is in the custody or possession of Contractor, or

The requirements of [Subchapter J, Chapter 552, Government Code](#) ("Subchapter J") may apply to this Agreement and Contractor agrees that the Agreement can be terminated if Contractor knowingly or intentionally fails to comply with a requirement of Subchapter J.

University may not accept a bid for a contract described by [Section 552.371, Texas Government Code](#) or award the contract to an entity that the University has determined has knowingly or intentionally failed to comply with Subchapter J in a previous bid or contract described by Section 552.371 unless the University determines and documents that the entity has taken adequate steps to ensure future compliance with the requirements of Subchapter J.

If Contractor fails to comply with the requirements of Subchapter J applicable to Contractor, then University shall provide written notice to Contractor stating the requirement(s) of Subchapter J that Contractor has violated. Contractor acknowledges that this Agreement may be terminated and payment withheld if this certification is inaccurate.

61. Contractor Compliance and Certification Relating to Cloud Computing Services. Section 2054.0593 of the *Texas Government Code* (enacted by [SB 475, 87th Texas Legislature, Regular Session \(2021\)](#)) requires the Texas Department of Information Resources (DIR) to establish and implement a state risk and authorization management program to provide a standardized approach for security assessment, authorization, and continuous monitoring of cloud computing services that process the data of Texas state agencies. DIR by rule shall prescribe (1) the categories and characteristics of cloud computing services subject to the state risk and authorization management program and (2) the requirements for certification through the program of vendors that provide cloud computing services. DIR shall evaluate vendors to determine whether a vendor qualifies for a certification issued by DIR reflecting compliance with program requirements. Texas state agencies must ensure that each contract for cloud computing services that the agency enters into or renews on or after January 1, 2022, complies with Section 2054.0593.

As a result, Contractor must comply with the requirements of such a state risk and authorization management program and maintain program compliance and certification throughout the term of this Agreement. Contractor understands and agrees that the University may not enter into or renew a contract with Contractor to purchase cloud computing services for the University that are subject to the state risk and authorization management program unless Contractor demonstrates compliance with program requirements. Contractor acknowledges this Agreement may be terminated and payment withheld if Contractor does not comply with this Section.
