DEO #	Catagonia	Denvisement Description	Duiania. IIBAI	Damilianian and Time	Note - For grayed out cells add	Commanda / Natas
REQ#	Category	Requirement Description	Priority - HML	Requirement Type	Comments / Notes in Column G	Comments / Notes
		Position Management: Ability to define, track, and maintain positions, capture Job				
		description, classification, compensation, reporting structure, job types (e.g. full-time,				
REQ 001	Core Feature	part-time, remote) and required skills	High	Functional		
		Hiring Plan Approvals: Ability to create and manage hiring plan (Provost / Dean				
DEO 003	Cara Fastura		Lligh	Eunstianal		
REQ 002	Core Feature	approval) to approve the job requisition	High	Functional		
REQ 003	Core Feature	Ability to customize field names / labels as required for the job posting	High	Functional		
		Ability to create customized approval workflows for different departments				
		e.g. Each college has different approval workflows from Dept. admin to Dept. Chair to				
REQ 004	Core Feature	Dean's office and to Academic HR	High	Functional		
		Ability to upload documentation(PDF, Word, Excel, Images etc) that is needed for				
050 005	0 5 .					
REQ 005	Core Feature	approvals	High	Functional		
REQ 006	Core Feature	Ability to e-sign documents in the approval process	Medium	Functional		
REQ 007	Core Feature	Ability to provide automated reminders on all workflows for all users	High	Functional		
REQ 008	Core Feature	Ability to send email notifications for automated reminders	High	Functional		
		Ability to provide insights / dashboards for different user types	Ü			
		- Open vs filled positions				
		- Salary and budget variance				
REQ 009	Core Feature	- Retention and promotion trends	High	Functional		
		Ability to create Standard reports (as per academic calendar) -		1		
REQ 010	Core Feature	e.g. # of positions hired by rank / category	High	Functional		
REQ 011	Core Feature	Ability to create custom reports as needs evolve	High	Functional		
NEG UII	core reature		6(1	. acionai		
		Data Retention - (Applications for Employment - Hired) System should be able to	L	L .		
REQ 012	Core Feature	keep data for 5 years after termination of employment.	High	Functional		
		Data Retention - (Applications for Employment - not Hired) System should be able to				
		keep data for 2 years after date of the making of the record or the personnel action				
REQ 013	Core Feature	involved, whichever occurs later.	High	Functional		
REQ 014	Core Feature	Ability to parse resume from variety of formats (PDF, DOCX etc.)	High	Functional		
REQ 014	Core reacure		підії	runctional		
		Ability to provide applicant screening tools				
		- Pre-screening questionnaires, assessments				
REQ 015	Core Feature	- Applicant / candidate qualification results	High	Functional		
		Ability to schedule interviews				
		- Search committee (internal team members)				
REQ 016	Core Feature	- Applicants / candidates	Medium	Functional		
		Pr				
REQ 017	Core Feature	Ability for applicant to view and accept interview invitations	High	Functional		
REQ 018	Core Feature	Ability to provide offer letter tools and management	Medium	Functional		
		Ability to create custom email notifications to communicate to all users (internal /				
REQ 019	Core Feature	external)	High	Functional		
REQ 020	Core Feature	Ability to create / edit applicant / candidate profile	High	Functional		
REQ 021	Core Feature	Ability to search jobs based on keywords, location, department and other filters	High	Functional		
REQ 022	Core Feature	Ability to save job preferences and receive alerts	Medium	Functional		
REQ 023	Core Feature	Ability to apply to jobs with simple form and upload required documentation	High	Functional		
REQ 024	Core Feature	Ability for applicant to track job applications	Medium	Functional		
REQ 025	Core Feature	Ability for applicant to track application status	Medium	Functional		
REQ 026	Core Feature	Ability for applicant to save the application		Functional		
			High			
REQ 027	Core Feature	Ability for applicant to send questions to HR	Low	Functional		
REQ 028	Core Feature	Ability for applicant to provide feedback on application process	Low	Functional		
		Ability to upload applicant documentation (e.g. cover letters / resumes / reference				
REQ 029	Core Feature	letters / research papers, etc.)	High	Functional		
REQ 030	Core Feature	Ability to upload documentation on behalf of applicant	High	Functional		
REQ 030						
	Core Feature	Ability to collaborate and communicate within system (In- app messaging)	High	Functional		
REQ 032	Core Feature	SMS feature to communicate with the applicant	Medium	Functional		
REQ 033	Core Feature	Dedicated Search Committee portal. Ability to schedule meetings within system	High	Functional		
REQ 034	Core Feature	Ability to customize the evaluation criteria and ranking	High	Functional		
REQ 035	Core Feature	Ability to review, evaluate and rank the candidate applications	High	Functional		
REQ 036	Core Feature	Ability to communicate with search committee members (In-app messaging)	High	Functional		
REQ 030			-	Functional		
	Core Feature	Ability to add UTA branding to the portal, automated notifications etc.	High			
REQ 038	Core Feature	Mobile-friendly web / app for all the portal users	High	Functional		
		Ability to submit approvals on different platforms (Mobile / Tablets) (e.g. Route				
		position approval to multiple hiring authorities and allow to select approve/deny				
REQ 039	Core Feature	within the notifications)	High	Functional		
			Medium	Functional		
REQ 040	Core Feature	Allows calculations and formulas to prepare offer letters and budget calculations	ivieuidM	гинсиопаі		
		System should have chat bot functionality with integrated access to customer service				
REQ 041	Core Feature	representative if needed	Low	Functional		
		Offer a robust Universal Search on metadata captured across modules/portal (i.e.				
		locate specific applicant / candidate records; search for candidates using various data		1		
REQ 042	Core Feature	points, such as biodata	High	Functional		
NEQ 042	co.c. catare		1.19(1	. dctional		
		Ability to process / trigger parallel approvals (e.g. Hiring packet with multiple				
REQ 043	Core Feature	documents are routed to different approvers)	High	Functional		

				,	
		Ability to create bulk messaging to a large number of applicants / candidates at once			
REQ 044	Core Feature	(and look bespoke to each candidate) and ability to easily view all sent messages.	High	Functional	
REQ 045	Core Feature	Ability to bulk edit postings (i.e. remove or add specific language to all postings)	High	Functional	
REQ 046	Core Feature	Ability to add Linked In Profiles powered by LinkedIn PDF download functionality.	Medium	Functional	
NEQ 040	Corc reature		Wicdiam	Tunctional	
		Ability to automatically transition postings and applicants / candidates using logic.			
		(i.e. if posting closed based on specific date entered, transition posting to closed. if screening answers disqualifies applicant, transition to sepcific disposition codes i.e.			
REQ 047	Cara Faatura	"Does Not Meet Minimum Qualifications")	Liigh	Functional	
KEQ 047	Core Feature	Does Not Weet Willimian Qualifications)	High	runctional	
		Ability to manage candidate references by triggering necessary notifications for			
REQ 048	Core Feature	specific applicant status	High	Functional	
REQ 049	Core Feature	Provide user friendly interface for references providers.	High	Functional	
DEO 252	Core Foothers	Ability to offer Internal job board communication (i.e., email all current faculty in	B d = ellissee	F et la I	
REQ 050	Core Feature	specific departments of upcoming job posting).	Medium	Functional	
		Anonymized screening - Ability to hide identifying applicant / candidate details during			
REQ 051	Core Feature	initial resume review to promote fair evaluation based on qualifications.	Medium	Functional	
MLQ 031	Core readule	initial resume review to promote fair evaluation based on qualifications.	Wicardiff	i unccioliai	
		Ability to allow applicants / candidates to choose interview slots provided by hiring			
		unit. Reduce back-and-forth emails with automatic calendar syncing and time zone			
REQ 052	Core Feature	detection.	Medium	Functional	
		Offer applicants / candidates easy-to-use, mobile-friendly application forms with auto-			
REQ 053	Core Feature	fill and one-click application options.	High	Functional	
REQ 054	Core Feature	Spellcheck should be available across the system	High	Functional	
REQ 055	Core Feature	Provide a list of standard reports offered with the solution	Medium	Functional	
REQ 056	Core Feature	The system must offer a clear, intuitive user interface	High	Functional	
REQ 057	Core Feature	Provide Implementation timelines (e.g., 3-6 months)	High	Functional	
		Permission granularity - Describe the security role model(s) you support including,			
REQ 058	System Management - Identity Management	but not limited to, administrators, users, delegation.	High	Non-Functional	
	System Management - Identity Management	Can role based permissions be extended into the application via SSO?	High	Non-Functional	
NEQ 055	System Management Identity Management	Integration or extensibility - Describe any out of the box systems you integrate with,	riigii	Non runctional	
		generic methods, protocols for integration. Examples are SDK's, scripting languages,			
REQ 060	System Management - Integration	API's.	High	Non-Functional	
		Import and export data from/to another tool - Describe any import and export	Ü		
REQ 061	System Management - Integration	options (MS SQL, CSV, XLS, Reporting only, native SQL etc.).	High	Non-Functional	
		Web Services / API functionality - REST, SOAP - What percentage of your functionality			
		is accessible via REST and what percentage of your functionality is accessible via			
REQ 062	System Management - Integration	SOAP.	High	Non-Functional	
REQ 063	System Management - Integration	Integration with Institution Relevant Applications - PeopleSoft (HRM)	High	Non-Functional	
REQ 064	System Management - Integration	Ability to import and/or export data via SFTP for integration purposes as required	High	Non-Functional	
		Job board integrations (e.g., LinkedIn, Indeed, Work in Texas, Texas work force			
REQ 065			Lligh	Non Functions!	
NEQ 003	System Management - Integration	commission, HERC, Higher Ed, the Chronicle and Direct Employers)	High	Non-Functional
