

Grant Opportunity Ideas—Open Education Resources (OER)—Up to \$5,000

<http://libguides.uta.edu/utacares>

- * Adopt an OER to replace a high-cost textbook
- * Create ancillary materials (quiz bank, glossary, etc.) for an open textbook
- * Modify an existing OER
- * Collaborate with others to create an OER
- * Develop a course-integrated open pedagogy project
- * Come up with your own idea for an OER

LexisNexis Gets a New Name & New Interface — Summer 2017

The screenshot displays the Nexis Uni™ website interface. At the top, there is a navigation bar with 'Nexis Uni™', 'Menu', 'History', and 'Hi Carol'. The main heading is 'Nexis Uni™'. Below this, there are links for 'Advanced Search', 'Tips', and 'Get a Doc Assistance'. A search bar is highlighted with a red box, containing the placeholder text 'Enter terms, sources, a citation, or shep: to Shepardize®' and a search button with a magnifying glass icon. Below the search bar, there are tabs for 'News', 'Cases', 'Law Reviews', 'Company Profile', and 'A Publication'. Under the 'News' tab, there is a section for 'Find specific content' with a search input field 'Search in all News for' (placeholder: 'Enter keywords or subjects') and a 'Choose date range' dropdown menu (set to 'All available dates'). A blue 'GO' button is positioned to the right of these fields. At the bottom, there is a 'Discipline Pages' section with buttons for 'Business', 'Criminal Justice', and 'Political Science'.

Research Impact Analysis

An important part of articulating the value of your research to the University and granting institutions is presenting the impact of that work. Let the business librarians know if we can create an “impact report” for you.

Do you need an ORCID ID? [pronounced like the flower] <http://orcid.org/>

"A persistent digital identifier that distinguishes you from every other researcher (especially useful for common names). Integration in key research workflows such as manuscript and grant submissions."

PLUMX

- Tracks research impact.
- Shows early interest in your work, before traditional citation counts appear.
- Captures scholarly works beyond journal articles: videos, datasets, patents, etc.
- New metrics help demonstrate a wider community impact, which may be of interest to funding agencies or for the promotion and tenure process.
