Plan Notes for 2024

UT CARE™ MEDICARE PPO

Current UT CARE enrollees' coverage will roll forward. No action is required. The UT CARE plan year is January 1, 2024 to December 31, 2024.

There is one change to the UT CARE medical plan design: the Affordable Care Act maximum out of pocket is increasing to \$9,100. With there being no deductible or copays for the UT CARE plan, the out-of-pocket maximum impacts a very small number of participants. For those who are impacted, the \$9,100 maximum is a financial safety feature to save the member from further financial expenses.

For the UT CARE prescription plan, certain weight loss medications (Wegovy and Saxenda) are no longer covered effective January 1, 2024.
